THREE YOUNG MEN ABANDON CAR HERE

STOLEN FROM EARL WOODARD, SHENANDOAH, IA.

WHAT BECAME OF THEM?

Is Thought Probable That They Took Morning Burlington South—Owner Gets Machine

Three young men drove a stolen Buick roadster into Maryville yesterday morning, abandoned it near the section house at the Wabash station and disappeared. A woman living in the vicinity of the station noticed the young men stop with the car about 6 o'clock. She noticed that they had grips and that they took them from the machine. About 8 o'clock the machine was still there and she decided that it might be a stolen one.

Accordingly she called E. E. Tilton, chief of police. Mr. Tilton went to the machine and being unable to find anyone claiming it decided that it was stolen. An ownership certificate showed that it belonged to Earl Woodard of Shenandoah, Ia. He notified the marshal at that place and the report came back that Mr. Woodard's machine had been stolen. Woodard, Deputy Sheriff Cleveland and Constable W. D. Johnson of Shenandoah came for the car, taking it home yesterday afternoon.

The story told by the man from Iowa runs like this:

A Ford car was stolen Saturday night in Shenandoah and driven to a point near the farm of Wodard. Here it broke down and was left. The machine of Mr. Woodard was missing the next morning, so it is supposed that the same parties went to his garage and got his car. It is thought probable that two of the three young men were a pair who had skipped a board bill at Shenandoah and that they were trying to get away.

What became of the men when they got to Maryville and why they left the car is not known, for the machine was in good working order and was not out of gas. It is supposed that they got on the 7:52 Burlington train and went south, although employes at the Burlington station say that they cannot remember of selling tickets to them. It is thought that they intended to take the Burlington from here and that they mistook the Wabash station for that of the Burlington, then deciding to kill time until the train came by walking to the Burlington station. The machine bore a Nebraska state license. Woodard said that he owned a ranch in that state and that he kept the machine there most of the time, therefore the Nebraska license.

WILCOX WINS GAME IN ELEVENTH INNING

SCORE 2 TO 1—700 PEOPLE WERE THERE

MAY PLAY NEXT SUNDAY

Wilcox Gets Run in Fifth and Another in Eleventh—Maryville Around in Seventh

Seven hundred people saw the Wilcox Baseball Club team defeat by a score of 2 to 1 the Maryville Semi-professionals in an eleven inning game at the Wilcox club park yesterday afternoon. It is said to be the largest crowd that has assembled in the county for a baseball game alone for several years and it was the best game that has been staged in the county in the memory of many of the fans.

Maryville was somewhat hampered by the fact that three of the men expected were not able to come on account of having played a game in St. Joseph Saturday. The three were Cox catcher; Poirer, pitcher and Speaker, center fielder. These men played for St. Joseph Saturday in the game in which the Mollas defeated the Ararat Temple team of Kansas City by a score of 3 to 2.

When it was found that it was not possible to have the men who were scheduled Knuckles of Clearmont was secured for the box and he pitched a good game. Arthur, whose position is that of first baseman, was run in to catch Knuckles. He did well until about the eighth inning when he seemed to be unable longer to hold the one-armed twirler. Knuckles has a hard delivery to receive unless a man is used to catching.

Until the last of the fifth inning no one scored. Then Kinnen, pitcher for Wilcox, got a long drive to left field, made second, then third and stole home.

In the seventh inning Lauder, left fielder for Maryville made a run on an error and an overthrow by Short stop Leech at third base.

At the end of the ninth inning the score stood at 1 to 1 and the game was continued through the tenth inning and then through the first half of the eleventh with no change in the score. Then Leech made a run for Wilcox and the game was over.

The run that Leech made cost Maryville about $325, the amount of the gate receipts, for the entire receipts went to the winning team. It is planned to have a game again next Sunday at Wilcox between the two teams, provided the three men who were unable to be present yesterday can be secured. Such a game would create a great deal of interest among fans in this section of the state.

Following is the lineup for the two teams: Wilcox—Leech, ss; Egley, cf; T. Tobin, c; Jones, 3b; P. Tobin, 2b; Kinnen, p; Carmichael, rf; Booth, lf; Brennan, fb.

Maryville—Leifrad, 2b; Tilson, 1b; Lauder, lf; Schaff, ss; Wright, lf; Dorst, rf; Scott, 3b; Arthur, c; Kunckles, p.

Knuckles was umpire.

Wilcox got six hits and Maryville three. Knuckles got six strikeouts and Kinnen got twenty-one.

There were but two errors in the game.

PLAN INTERESTING PROGRAM FOR C. OF C. DINNER

An interesting program has been planned for this evening for the weekly dinner of the Maryville Chamber of Commerce, to be held at 6:30 o'clock at the Bainum Hotel. The program will be in the nature of a round table talk regarding things of interest to the Chamber of Commerce and to the individual members. C. C. Hellmers of the entertainment committee will be chairman.

MARYVILLE MAY GET PRESS MEET

EFFORTS TO BE MADE TO HAVE STATE ASSOCIATION HERE.

MANY IN FAVOR OF IT

Will Bring 300 Editors or More From All Parts of the State Here.

Maryville may entertain the Missouri Press association at its meeting next fall. At least efforts are being made to get the association to meet here one day, then take motor cars for a trip to Rock Port and other places in that community.

The following is from today's Kansas City Times:

"It was tentatively decided at a final meeting of those concerned just before the adjournment of the press association meeting that the meeting next fall should be a sort of progressive affair. The plan at present is to have all members meet in Kansas City, where a special train will be provided to take them to Maryville, first. After a day and night of festivity there motor cars will be provided for trips to Tarkio, Rock Port, Oregon and Mound City. Each of these towns will entertain the visitors, who will eventually return to Maryville and then to Kansas City in the special train."

Meetings of the association generally have been held in the cities. It is believed members would greatly enjoy a visit to the northwest part of the state to see what we have here. All of the entertainment necessary to make it an enjoyable meeting could be had.

Maryville, indeed, would be fortunate in getting the press association to meet here. With probably 300 editors from all parts of the state, it would be the most important meeting ever held here.

The Missouri editors were royally entertained at their 56th annual meeting in Kansas City Thursday, Friday and Saturday. As was aptly expressed in the report of the resolutions committee "we are at loss to imagine how Kansas City could have done more to make our short stay here any more enjoyable."

The newspapers of Kansas City gave considerable space to the meeting, giving more publicity than ever before received at any meeting of the association. Their editors and reporters were in attendance at each and every session, getting acquainted with the rural press.

The Kansas City Star gave an informal dinner at the Kansas City Club on the first evening of the meeting. Walter S. Dickey, publisher of the Kansas City Journal-Post, entertained the editors at a luncheon and entertainment at his magnificent home Friday noon. This was one of the most enjoyable affairs of the meeting. The closing banquet Friday night was given by the Kansas City Chamber of Commerce and the Kansas City Printer's Supply Club. Friday afternoon the Automobile Club had a ride over Kansas City's great boulevards.

Dwight H. Brown, editor of the Poplar Bluff American, was elected as president of the association to succeed Fred Hull of Maryville. Mr. Brown has not been able to read a book or newspaper since he was 8 years old. He has been an active newspaper man seventeen year. Because of his impairment of eyesight, he has had to employ a copyreader to read to him.

Fred Hull was elected as one of the directors of the association.

HARDING PLANS NO ACTIVE PART IN THE CAMPAIGN

Has Rejected the Numerous Requests Made of Him to Take the Stump.

Washington, Sept. 25.—(President Harding plans to take no active part in the campaign now under way to determine the political status of the sixty-eighth congress, it was learned today. The President as head of the party, will participate occasionally in the party councils, probably to offer suggestions and to advise, but will not take the stump.

Numerous requests have been made for the President to speak but invariably they have been rejected. The leaders informed the President they expect to maintain senate majority, but believe the house Republican majority will be severely reduced.

21ST ANNUAL SHOW TO BE DEC. 5-8

PLANS FOR LARGEST AND MOST UP TO DATE EVER HELD

BUY STEEL WIRE COOPS

Adam Thompson of Amity to be Judge —Meeting at Farm Bureau Office Saturday

The twenty-first annual show of the Northwest Missouri Poultry Association will be held in Maryville December 5, 6, 7, 8. Plans are being made to have this show be the largest and most up-to-date ever given in Maryville.

Steel wire coops will be provided for all of the poultry in the show.

Adam Thompson of Amity, Mo., has been engaged to judge the show. Mr. Thompson has been the judge at these shows for four or five years until last year when he was unable to come. However he has already been contracted with to judge the poultry this year.

A meeting of the association was held Saturday afternoon at the County Farm Bureau at which time Mrs. Alfred Jones, the secretary of the association was instructed to buy the wire coops and to tend to the necessary business.

ATTACKS VALIDITY OF JUDGE'S OPINION

RICHBERG WOULD TAKE PLAN BEFORE THREE COURTS

MORE MEN GOING BACK

Forty-five Hundred on Baltimore & Ohio Allowed to Return—Also On C. & A.

Chicago, Sept. 25—A sensational attack on the validity of Judge Wilkerson's opinion in the famous injunction case against the striking shopmen and leaders was made today by Donald Richberg, chief counsel for the defendants. Instead of asking for a complete review of the case by the appeals court Richberg asked that the governments plan of making the injunction permanent be submitted immediately to three judges for decision. He said this procedure would accomplish in a few days what would require months in the courts and would save immense amounts of money and time for the defendants.

Indianapolis, Sept. 25—Letters authorizing forty-five hundred shopcrafts men to return to work on the Big Four system are in the mails today. The terms of the Baltimore agreement are as accepted by President Smith of the New York Central lines in conference with the strike leader, B. M. Jewell.

Chicago, Sept. 25—Three thousand striking employes of the Chicago and Alton railroad probably will return to work by Wednesday under the Baltimore agreement, it was learned today. It was officially announced a majority of the men agreed to a complete arrangements but were delayed by the terminal employes outside of Chicago who are now reported favoring the plan.

CONGRESSIONAL FINANCIERING

President Harding's veto of the bonus bill brings out the interesting and somewhat embarrassing admission that the Government face a deficit of $650,000,000 for the fiscal year which ends June 30th next. This is embarrassing to the spellbinders at the beginning of the campaign who are naturally anxious to report an attractive condition of the treasury. It is an admission that perhaps would not have been made had not Congress forced upon the President the necessity of giving some reason for his veto of the bonus bill.

Under such conditions, rather than spend any large additional amount of Money, it is possible that the President may veto appropriations for river and harbor improvements and other expenditures authorized by Congress. The deficit is largely the result of the reduction of the receipts from taxation by relieving large tax payers from the payment of the excess profit tax and the loss or shrinkage of revenues through the general business depression. Congress can not well increase taxes to make up for the losses and must therefore exercise a policy of economy and effect a reduction of expenditures.

If Great Britain and France are able to pay some of the interest that has accrued on their loans it may enable the Government to reduce the expected deficit somewhat but, if they are not, the outlook is not promising. As the President points out the Government is spending this yea r "510 million dollars on hospitilization and care of sick and wounded, on compensation and vocational training for the disabled, and for insurance." In addition to this there is an expenditure of 35 millions on hospital construction. This makes a total almost as large as the entire expenses of the Government a few years ago.

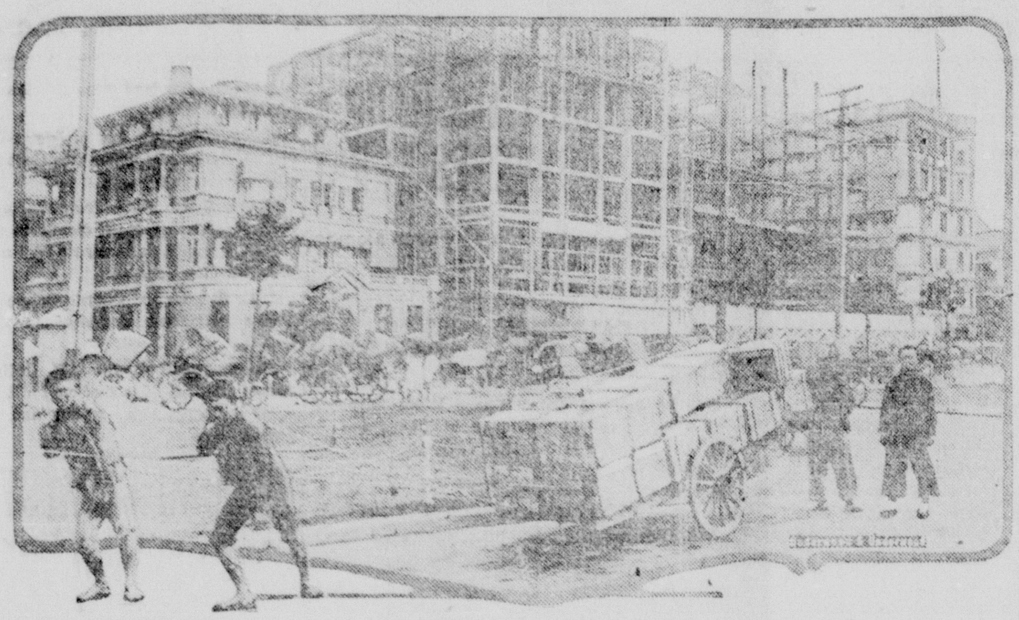
It is therefore no easy task to reduce the expenditures of the Government at this time and an increase of revenues is practically out of the question until there is a general improvement in business conditions and any increase in taxes for the mere purpose of raising money for general expenses would be suicidal to the party attempting it.

The difficulty of the situation is apparent in the fact that Congress has been working on the bonus bill for more than a year and finally passed it without providing any means for raising the revenues which the bill commanded the Government to pay. However desirable it may be to pay this tribute to the boys who wore the khaki, there are few if any of them, who will not appreciate the serious financial situation that the Government must meet as the outgrowth of the war. The sick and, in the nature of things can not approve, because of the without sparing, but the Government has no means of raising money except by taxes upon the people and there is naturally a limit to this.

The irresponsibility of Congress is manifest in the fact that it is willing to pass and seek to take credit for a bill which it knows in advance its own administration will not approve and, in the sature of things can not approve, because of the condition of the federal treasury. The people at large are not of course generally aware of the situation but Congress has been well and fully advised and though, unable to devise a way to raise the money after a year's consideration, was willing to check it up to the President to reveal the true situation.

It's toasted. This one extra process gives a delightful quality that can not be duplicated

War Doesn't Check Demand for Bibles in China



In spite of civil war and political upheavals in China, the American Bible society recently shipped from its headquarters in Shanghai to its sub-agency in Peking the largest single consignment of Bibles in the history of the society's work in China. The photograph shows coolies hauling a portion of this consignment through the streets of Shanghai. The complete shipment consisted of 104 cases containing 187,000 volumes.

BEARCATS WIN OPENING GAME BY SCORE OF 6 TO 2

Was Hot Afternoon and No Brilliant Playing Was Done on Either Side.

The State Teachers College Bearcats won their first football game of the season Saturday when they defeated the St. Joseph Junior College by a score of 6 to 2. Fans who attended the game were not treated to real football by the local team until the last four minutes, when with the score 2 to 0 against them the Bearcats carried the ball from their twenty-yard line down the field for a touchdown. It was a real exhibition of straight football. First fullback Foreman hit the center for yards and then the two halves, Miller and Hudson, would skin tackle or skirt the ends. Foreman made the touchdown by hitting a hole made by Kirby, Maryville center.

After the touchdown the locals failed to add another point by the one play method. This year's rules have abolished the kick following a touchdown and now the ball is taken out to the five-yard line and the team that scored is given one play in which to cross the line again. If this is successful then a point is added to the score and if the play fails to score the touchdown counts but six points.

The St. Joseph team scored a safe when Miller, Bearcat half back, was downed behind his own goal by Meier. The safety counted two points.

The Bearcats did not get started off right at the beginning of the game. Penalties seemed to take away the pep of the men and the hot day made playing football rather hard. The opposing team played good ball and was successful on end runs especially.

There were no particular stars on the Bearcat line-up. Kirby and Messmer in the line showed up well and Wilson and Foreman played well in the backfield.

Russell E. Sprong, former coach at the State Teachers College, refereed the game. E. W. Glenn of the College faculty, was the umpire, E. W. Atkinson, the head linesman.

Miss Betty Turner, executive secretary for Nodaway County of the American Red Cross, did Red Cross work Friday in the vicinity of Skidmore.

WEEK IN THE FINANCE WORLD SATISFACTORY

Despite Nervousness, Developments in Industrial World Are Said Satisfactory

New York, Sept. 25.—Despite nervousness in the securities markets, domestic, industrial and financial developments durin g the past week continued reasonably satisfactory.

Talk of war in Europe on the basis of the Turkish troubles which conservative quarters considered overdrawn was a disturbing influence but served to rally grain prices appreciably. December wheat rose as high as $1.09⅞, which is 10 cents above the recent low.

Further gains have been reported by the steel industry. More blast furnaces have been placed in operation and the rate of steel making has been increased to approximately 65 per cent of capacity. This recovery, which is better than had been anticipated, has been accompanied by a settling down of the steel market as far as prices are concerned.

The improvement in steel operations has been made possible by an easier situation with regard to coal. Bituminous production has been pushed well beyond the 10,000,000 tons a week and supplies are now fairly comfortable.

Car loading statistics also are satisfactory, indicating that the railroads are still expanding the traffic movement to new high levels since the fall of 1920.

Disregarding a rise in the sensitive call money rate on the New York Stock Exchange to 6 per cent, which seemed to have been due to tax collection operations, the tone of the money market has become slightly firmer. Bankers' acceptances now command one-fourth of 1 per cent more than was the case a few weeks ago.

The explanation lies partly in an increase in the volume of bills, which has been led up to by heavy importations, some of which are seasonal and some of which have been in anticipation of the change in the tariff.

At the same time it would appear that foreign balances have been withdrawn from this market, probably for use in purchasing grain and raw materials. No sharp rise in money rates is, however, anticipated.

F. J. Donahue spent Sunday in Skidmore.

Time to Build Strong

It has come to be understood by most manufacturers and distributors that a large volume of business at any period of time is of itself no proof that the business is built on a sure foundation. The volume may be due to a variety of conditions, and those conditions may be temporary, and may be entirely out of the control of those who enjoy them.

The only sure foundation upon which a big business can be successfully built is an undisputed consumer preference. Let that be present and it matters not how quickly a business grows, or how big it grows, you have the assurance that it is solidly built and that it will not topple over when the first wind blows.

Advertising is the corner stone of the structure of consumer preference. No conspicuous example exists where there is a steady and sure consumer demand for any product that is not properly advertised. Every instance that can be cited of a consumer demand that is strong enough to offset changing market conditions may also be cited as an example of the effective use of advertising.

The present business condition is a challenge to every business that is built on the uncertain foundation of a demand due to a favorable state of the market. Assuming that the strong demand of the past few years, prior to 1920, was a permanent thing, many manufacturers made provisions to supply the demand and reap a harvest of profits; but they overlooked the importance of insuring their share of the demand.

Now the great lesson has been learned—at a prodigious cost. The disposition today is to build strong, to make sure of the foundations before rearing a great superstructure. In the long run it will mean that all business will be on a more solid basis, and less likely to be upset by changing conditions. This will be the great compensation for the stress of the present period.

COPIES OF "A TAILOR MADE MAN" ARE HERE

The copies of the De Molay play, "A Tailor Made Man" arrived in Maryville this morning and will be given to the cast today or tomorrow. A reading rehearsal of the play will be held Thursday night at the Conservatory of Music immediately following the meeting of the Dramatic Club. At this time Miss Blanche Dow, who will direct the play, will meet the members of the cast and get them lined up. Intensive rehearsals will start the last of this week or the first of next week.

The play will be presented at the Empire Theater Monday and Tuesday nights, October 16 and 17.

DISCARDS DONKEY AS EMBLEM

Democratic Executive Committee Selects Goddess of Liberty for Party

St. Louis, Sept. 25—The Goddess of Liberty was adopted unanimously by the executive committee of the Democratic state committee as the emblem of the Democratic party in Missouri, succeeding the donkey, which has served the Democratic party as its emblem for many years.

Members of the committee said the change was made because the donkey as an emblem was neither artistic or dignified, and that the Goddess of Liberty was much more appropriate.

Under the decision reached by the committee, the Goddess of Liberty will displace the donkey upon the Democratic ballot in the November election.

BIG CAST WITH RAY IN "R. S. V. P."

Charlie Ray's droll genius to burlesque characters is again evidenced in "R. S. V. P.," his First National attraction which will start a run at the Empire Theater today and tomorrow.

This time the star appears as an artist of much ambition, but little success, who is impoverished because he declines to have his wealthy relatives support him. Jean Calhoun makes her bow as a leading lady for the star and proves an attractive person, just suited to Ray's style of acting. Harry Myers, who had a prominent role in "A Connecticut Yankee in King Arthur's Court," appears as Ray's chum, Benny Fielding. William Courtright is shown in one of the character roles for which his name has become famous in screen circles.

Rob Wagner, gifted writer of original scenarios, has provided the star with a story that offers more than the usual opportunity for comedy touches.

MYSTIC AND SCRATCHISTIC ORDER OF THE FLE

Is Increasing in Numbers Here—Spreading to All Classes of Men —Secret

"The Mystic and Scratchistic Order of the Fle" is growing rapidly in membership in Maryville. Already there are more than fifty members in the city. Possibly the people of Maryville do not realize that the order is in their midst but doubtless some have noticed the "high sign" without knowing what was meant.

The order was first introduced in Maryville in a public manner by Rolf Raynor, a vocational student at the State Teachers College. He administered degrees to several members of the Seth Ray David Post, Veterans of Foreign Wars. For some time it was kept strictly among the veterans but another student at the College who had previously attended the University of Missouri, and had become a member while there, took in a class of several candidates.

The purposes and methods of the order are secret and the meetings and meeting places of the Maryville "Brethern" have not been disclosed. But nevertheless, the members are multiplying day by day.

It is said that there are eighty-seven degrees to the Order of Fle, but there is no way of confirming this statement. And members refuse to reveal how it is that the species is spelt "f-l-e" instead of "f-l-e-a."

BALLOTS TO BE SENT OUT SOON

ONE WILL CONTAIN NAMES OF CANDIDATES OF ALL PARTIES

REFERENDUM PROPOSALS

Also a Few Amendments—The Cost of Printing to Run Into Thousands of Dollars.

Jefferson City, Sept. 25.—In conformity with the statutes, the secretary of state will, in about two weeks, send forms for ballots, to be used in the election, November 7 to the county clerks. Arrangement for the printing will then be made by the counties which will assume the expense.

No estimate of the cost of this printing has been prepared at the Capitol but it is known there that the cost of printing will run into many thousands of dollars. The publication, at state expense, of the initiative and referendum propositions and the constitutional amendments which will be voted upon at the election will be about $239,000.

The ballot of each party will, as it is customary and legal, be topped with a printed emblem, certified to the secretary of state by the party committee. The Republicans have already certified the elephant as their party emblem; but neither the Democrats nor the Socialists have made known their choice to the state department.

Voters Get Two Ballots.

Two ballots will be presented to the voters. One will contain the names of the candidates for office and the other, three constitutional amendments, two initiative propositions and 16 referendum proposals.

The first of the amendments is to raise the pay of members of the general assembly from $5 to $10 a day for the first 100 days of regular sessions of the assembly and after that providing $1 a day for each additional day. The amendment provides payment of $10 a day for the first 120 days of revising sessions.

The second amendment eliminates the sex qualification for suffrage.

The third amendment provides for the maintenance of the state road system with funds obtained from the sale of automobile licenses after the principal and interest of road bonds is paid.

Referendum Propositions.

The referendum propositions are.

To create a department of labor and consolidate it with other departments; to create a budget department; to abolish the state beverage inspector, merging the office in that of supervisor of public welfare, which office it is proposed to create, absorbing in it the functions of the food and drug inspector; to create state department of agriculture, consolidating certain boards in it; to abolish thirty-eight judicial circuits and create thirty-four; to provide a system for workingmen's compensation and create a commission to administer it; to provide for county school districts and county boards of education; to abolish justices of the peace in townships containing a city of not less than 100,000 inhabitants nor more than 300,000; to repeal laws in conflict with provisions relative to justices of the peace; and to divide Missouri into sixteen congressional districts.

Proposed by Initiative.

Proposed by initiative petition are an act providing damages for personal injuries or death resulting from the wrongful act or neglect of another, abolishing the fellow servant law and the contributory negligence plea, making the defense of the assumption of risk a question of fact to be determined by the jury, and making an employer liable for the act of an employe who injures another employe; and an act dividing Missouri into senatorial districts according to the last United States decennial census so that districts may conform to constitutional requirements.

REVIVAL MEETING AT SKIDMORE CLOSES

Three Services Were Held Yesterday —Snodgrass to Hold One at Elmo Next

The revival meeting of the Christian Church at Skidmore, which has been going on for the past three weeks under the leadership of the Rev. R. E. Snodgrass, closed yesterday with three services. The morning service was in the hands of a team from the Maryville church. This team was composed of G. B. Roseberry, W. E. Goforth, A. L. Nash and J. R. Strader.

A basket dinner was held at noon and in the afternoon music was furnished by the men's chorus of twelve voices and an orchestra from the Maryville Christian church. A delegation of about thirty persons from Maryville attended the meeting.

Mr. Snodgrass will go to Elmo Wednesday to start a meeting at the Christian Church of that city.

SWEET SPRINGS WANTS PICKENS TO ASSIST.

Secretary George A. Pickens of the Maryville Chamber of Commerce received this morning a letter from A. D. Teter, secretary of the Chamber of Commerce at Sweet Springs, asking that he go to Sweet Springs October 3 to assist in getting things started in a community program for the Sweet Springs Chamber of Commerce. Mr. Pickens said that he would be unable to go to Sweet Springs. Mr. Teter wrote that he was endeavoring to organize and do community work in four counties.

BOOKS FOR "TAILOR-MADE" MAN" HAVE ARRIVED.

A reading rehearsal of the De Molay play, "A Tailor-Made Man" will be held at 7:30 o'clock tonight at the home of Miss Blanche Dow, director of the play, in the South Methodist flats. The copies of the play arrived today and have been given to the members of the cast. The first regular rehearsal of the play will be held Thursday night at the Conservatory of Music immediately following the meeting of the Dramatic Club. At this time the first act of the play will be rehearsed. The play will be presented at the Empire Theatre Monday and Tuesday nights, October 16 and 17.

DRUG RUNNING HARD PROBLEM IN PACIFIC

Honolulu, Sept. 25.—Uless an international agreement can be effected, Collector H. E. Murray doubts whether merchant vessels plying the Pacific between the Orient, Honolulu and coast ports will be permitted to mount artillery, as has been suggested by those interested here in suppressing the opium traffic.

"Guns are the only effective weapon against the dope runners," Murray says "Airplanes have been suggested, but the smuggling sampans would put out still farther to sea if they were forced to; they can stay out ten days or so if they have to. A tin of opium f. o. b. the ship costs about $52. Selling here at $100 or more, the profit is $5,000 the hundred."

BALLOTING TODAY FOR STUDENT COUNCIL MEMBERS

Balloting is going on today at the State Teachers College for the members at large to the Student Council. Last week a primary election was held in which six candidates were named. Today three of that number will be chosen as the councilmen-at-large. The students who won in the primary are Anna Mae Gillis, Elvira Ward, Mabel Raines, Richard Runyan, Marie Landfather and Howard Leech.

HIGH SCHOOL BOY IS GOLF CHAMPION

Hutchinson, Kan., Sept. 25.—Emerson Carey, Jr., sixteen-year-old local high school boy, is the amateur golfing champion of this city. He has established a record for the lowest score among amateurs on three Hutchinson golf courses.

The youngster recently equalled the low score established for the nine-hole Country Club course by Arthur Andrews, professional, when he shot a 35 in foursome play.

Carey set a mark of 33 on the Municipal course, and a short time later to prove his consistency, played around his father's privte course in 35.
